

# ST 270 E

## Double Format Non-Rewind System

**The ST 270 E non-rewind system is the double format version of our award-winning ST 200 E.**

It is equally suited for 35 mm and 70 mm films and features easy operation, optimum film protection and perfect reliability.

### Top Features

- » Very easy operation due to electronic control systems and sensors
- » Make-up and tear-down of film prints from any disc
- » Works absolutely reliably and safely with any film stock, irrespective of thickness, material and age of the film print
- » Automatic recognition of the take-up and feed-out disc
- » Very gentle film handling, stable operation
- » Engineered for maintenance-free performance
- » Easy installation and operation
- » Suitable for all projector types
- » Combined film guide rollers for 35 mm and 70 mm films
- » Separate IR take-off units for 35 mm and 70 mm films
- » Make-up tables with adequate electronic control for both film formats available
- » Like all Kinoton products: perfectly reliable and virtually

35 mm IR take-off unit

70 mm IR take-off unit
